GUARDIAN

Changes in the healthcare industry, insurance carrier requirements and feedback from medical professionals often necessitate critical updates to the Tracker 5 software. Guardian Membership is a cost-effective way to stay up to date and at the cutting edge of physical performance evaluation and documentation by accessing these critical updates. Although Guardian Members can request updates be sent on disc, updates can be downloaded from your exclusive Guardian portal directly to your testing station, saving you valuable time.

Guardian Members benefit from JTECH's continued investment and commitment to technology and product development through unlimited technical support via phone, fax, email or online chat. Guardian Members requiring support by phone save time by skipping ahead of non-member callers with priority call routing and are also eligible for exclusive after hours support. Our expert technical support representatives can even connect to your PC remotely via the internet to troubleshoot problems with you.

Ask me about our convenient payment plans that can be tailored to meet your needs.

Take advantage of exclusive training resources available to Guardian Members to become an expert with the JTECH system. From one on one web-based training with our friendly and knowledgeable staff, to anytime access to online software tutorials that can be reviewed wherever you may be, Guardian Members are uniquely positioned to obtain the training and knowledge necessary to be successful.

Staying current or reinstating your Guardian Membership is as easy as picking up the phone to discuss your options with a Guardian Membership Specialist. JTECH offers convenient 0% financing as well as monthly payment plans. A Guardian Membership Specialist can help you afford the benefits you need.

* Revisions are updates in Tracker 5 and are not software upgrades. Shipping not included.
